Palleck Orthodontics Gives Back

“When it comes to our community it’s critical we all care.”

As a business in Woodstock, Palleck Orthodontics knows the importance of supporting local. This year COVID-19 challenged individuals and workplaces to adapt to the new normal. Even though days have been challenging for all of us, Palleck Orthodontics has continued to offer safe orthodontic services with a smile on their faces.

“Everyone needs a reason to smile! Our work embodies that—we create beautiful smiles which in turn help people build confidence and self esteem,” shared Sonia Palleck, owner of Palleck Orthodontics. Their work isn’t the only way Palleck Orthodontics brought about smiles recently. Their generous donation to the Heart FM’s Give Thanks to Your Hospital Radiothon brought giant smiles to Foundation staff members.

The Radiothon is all about bringing our community together to make a difference at Woodstock Hospital. When Palleck Orthodontics heard the Radiothon on October 15, they knew they wanted to support their local hospital. “It’s a place you hope you never need, but if you ever do, you want it to have the best of everything to help you or a loved one,” says Sonia.

Giving locally will impact you, your friends and family or someone they know directly. At Woodstock Hospital we provide primary care to a population of 55,000 people and offer specialized care to nearly 110,000 people within Oxford County. It is important that we have up-to-date tools to meet the needs of our community.

Making sure we have the best care that can save a life will mean everything when the time comes. Working in dentistry, Palleck Orthodontics knows why its important to invest in technology, because they see firsthand the difference it makes. “Technology makes everything more accurate,” shares Sonia, “quicker diagnoses in critical situations, less invasive investigative techniques or treatments, improved efficacy and implementation of treatment are all direct benefits of technology.”

We are so grateful for community businesses and supporters, like Palleck Orthodontics, who truly demonstrate community support. Thank you for believing in the work Woodstock Hospital does and supporting it. We are stronger when we all work together.
